INTRODUCTORY NOTE.

A few words explanatory of the scope and object of the sixth issue of this work may not be out of place.

Prior to the year 1886 it was the practice of the Foreign Office to publish the reports of Her Majesty's Diplomatic and Consular representatives abroad on trade, finance, and subjects of general interest, in Blue Books, at various intervals, when a sufficient number had been received to make a fair-sized volume. These Blue Books were published only during the Session of Parliament, or shortly after its close. This system, however, was open to two serious objections. In the first place, a person requiring a particular report on a specific subject found himself compelled to purchase a volume containing a quantity of extraneous matter, possibly of no interest to him, and at a cost consequently in excess of the value of what he really required. A still graver objection lay in the fact that while one report might be printed and ready for publication, it had to wait till others were received in a sufficient number to make up a Blue Book. Considerable delay was thus at times occasioned, and the value of the earlier papers proportionately diminished. The Secretary of State for Foreign Affairs in 1886, readily recognising the force of these objections which were then strongly urged, took effectual steps to remedy them by ordering a separate publication of all reports both during the Session of Parliament and in the recess. This arrangement met with the unanimous approval of the Public and the Press, and the reports were, thenceforward, issued at a price well within the reach of all classes, as will be seen on reference to the Appendix.

The Series thus established are divided into two categories, "Annual" and "Miscellaneous." In the former are comprised reports on Trade, Finance, Agriculture, &c., which are annually required from Her Majesty's Missions and Consulates abroad. In the latter are included reports on subjects of general economic interest, which are either specially called for by the Secretary of State or voluntarily submitted for publication by their authors. Each of these series have their consecutive numbers, which run on from year to year. From the summer of 1886 down to September 5, 1895, when Parliament adjourned, 1,631 reports of the Annual, and 378 of the Miscellaneous Series, have been
(2080)

issued in the separate form, and it is to the salient features of these 2,009 reports that the body of the present work is designed to facilitate reference. The system adopted is as follows: The black numeral preceding the letter A. or M. refers to the number of the paper; the letters themselves refer to the series, "Annual" or "Miscellaneous," as the case may be; and the smaller figures, following the letter, denote the page on which the subject is referred to. From what has been said above it will be seen that, with certain exceptions, the majority of the reports received from abroad, and which it is deemed expedient to make public, are now issued separately in one of the two series referred to. But it not unfrequently happens, when information from different countries on a specific subject is required, that it is considered preferable to publish all replies collectively, and thus consolidate the information in one book. Examples of such cases as this may be found in the Volume of Reports on Co-operative Societies Abroad (No. 20, Coml., 1886); Laws Relating to Employers' Liability Abroad (No. 21, Coml., 1886), and numerous other instances. Such collective information is still published in Blue Books of the commercial series as Command Papers, and numbered according to the year of issue. The symbols of reference to such papers being somewhat different, all reports so published, together with those on subjects of general commercial interest which appeared prior to the arrangement made in 1886, and already referred to, have been dealt with in Part II, which embraces a period of fourteen years, viz., from 1882 to 1895 inclusive.

As application is frequently made to the Foreign Office for these reports, it may be well to mention that they can be obtained from Messrs. Eyre and Spottiswoode, East Harding-street, Fleet-street, E.C., and 32, Abingdon-street, Westminster, S.W.; John Menzies, and Co., 12, Hanover-street, Edinburgh, and 90, West Nile-street, Glasgow; or Hodges, Figgis, and Co., Limited, 104, Grafton-street, Dublin; to whom direct application should be made, stating the number and the series, which will be sufficient to indicate the papers mentioned in the body of the report. To obtain those referred to in Part II, it is advisable to mention not only the serial number, but also the year and command number, which are printed in brackets for that purpose.

An Appendix has been added to this edition, showing the prices of each of the Reports referred to in Part I of the work, *i.e.*, those of the Annual and Miscellaneous Series.
